MONEY, STOCKS AND BONDS.

A Little More Animation and Strengtl Shown in Saturday's Market. NEW YORK, April 12.-Money on call was easy, with no loans, closing offered at 3 per

Prime mercantile paper, 5@712 per cent. Sterling exchange quiet and barely steady at \$4.854 for sixty-day bills, and \$4.87 for demand.

The total stock sales to-day were 85,08 shares, including the following: Atchison, 3,955; Delaware, Lackawanna & Western, 3,200; Louisville and Nashville, 3,181; Missouri Pacific, 5,800; Northwestern, 1,500; Reading, 3,400; St. Paul, 9,610; Union Pacific,

The stock market was a little more active to-day than during the same hours for many days, and on the whole, showed more strength than at any previous time this week. The "bears" were again active and aggressive in the early trading, encouraged by considerable London selling. The grangers were still the principal point of attack, and Rock Island, Burlington & Quincy and St. Paul were leaders both in point of activity and weakness. The Gould stocks, on the contrary, were great strength around 70, giving eviof inside buying. Pacific Mail was in all probability bought for election purposes, the election taking place next month. Lackawanna, Wheeling & Lake Erie preferred, Western Union and Union Pacific were all firm, and all but the latter were dull. There was nothing in the unlisted department. Towards the close there were rumors circulated that negotia-tions between the Vanderbilt and Gould interests would probably result in bringing the Missouri Pacific into the association, and the bank statement being more favorable than expected, there was liberal covering of "shorts" in the last half hour, which had the effect of rapidly advancing prices all over the list, and, as a rule, the early losses were entirely wiped out. Tennessee Coal declined 2 per cent., while Colorado Coal displayed marked strength, and especially in the last hour, when it rose the The in the last hour, when it rose 114. The market finally closed quiet, but firm, and generally at insignificant changes from last evening's figures. The final changes are in most cases advances, but for slight fractions only.

Railroad bonds were dull and without

feature. The sales of all issues reached only \$385,000, and the only marked move-ment was an advance of 2 in Burlington. Cedar Rapids & Northern consols to 891 Government and State bonds were quiet and steady. Closing quotations were:

TRADING AT CHICAGO.

Unprecedented Jump in Pork-May Wheat Passes the 91 Line-Big Day for "Buils." CHICAGO, April 12.-Activity and buoyancy were again manifest in the wheat market. Trading was active in all futures, and outside business, judging the way the orders came pouring in, was greater than any day since the board discontinued the sending out of quotations. The country is evidently foperating, and there is enough business from this source to make itself felt business from this source to make itself felt on the market. The course of prices was very irregular, and fluctuations were rapid and frequent. The opening was very unsettled, and prices varied low ic in different parts of the crowd, ruling lower in some instances than the closing of yesterday. From the inside prices May advanced 67se; June, 51se; July, 17se; ruled easier, and closed 80se higher for May; 81ce higher for June, and 31ce higher for July than the closing on Change yesterday. The optaids range TRADE IN GENERAL.

PRIME CAMBRICS—Manyille, 6c; Garner, 6c.
ST. LOUIS, April 12.—Flour fairly active of the start of the sta

sold yesterday were buying to-day. Crop news continues to come in bad, and from some sources the worst of their kind yet received. European market advices were favorable, quoting better demand and higher prices. Another large day's business was transacted in the corn market, which was active and rather unsettled most of the session. The feeling, on the whole, was firm, the market sympathizing with the advance in wheat and pork. There was no new outside feature presented and fluctuations were governed largely by local influences, the chief of which are mentioned above. The market opened strong with other articles and there was fair buying, but the advance did not hold well and the market reacted \$\frac{1}{4}\overline{\pi}^3 \text{sc}\$, recovered, ruled strong and closed \$\frac{3}{3} \text{sc}\$ higher than yesterday. In oats there was a fair business transacted, but an unsettled feeling prevailed and price changes were confined to \$\frac{3}{3} \text{c}\$ range. The opening was steady, but the strength in wheat and corn had a stimulating effect on values, and prices advanced \$\frac{1}{3} \overline{\pi}^2 \text{c}\$. Later buyers failed to take hold, an easier feeling developed, and prices yielded slightly to fair offerings: but the market again developed strength and prices advanced \$\frac{1}{4} \overline{\pi}^3 \text{sc}\$ ness was transacted in the corn maroped strength and prices advanced 4 @ 380 and closed at a net gain of 14 @ 38c. Considerable excitement was exhibited in

the market for hog products to-day, atuations in prices for mess pork. The sur-prise of the whole affair is the moderate amount of trading in all the leading speculative articles—scarcely exceeding that of the previous day. There was nothing de-veloped to really account for the sudden advance in prices—only an instance where the market went from under the control of anyone in par-ticular, everybody got excited and somewhat "rattled," and was anxious to provide for outstanding contracts, the small amount of property offered for sale creating very brisk competition and resulting in the unusual and rapid advance in prices. It has been evident that outside parties have been buying mess pork freely within the past two or three days, and that foreign orders also have been liberal. It was hinted that the first advance of 25c was made to "feel" the market, to ascertain if the property could be forced out, and develop! the extent—the line of "shorts." When this appreciation was gained, the market quickly got beyond the control of those who were searching for knowledge of the situation. In twenty minutes prices advanced \$3.70 for May and \$4 for June—unprecedented in the sulting in the unusual and rapid advance May and \$4 for June—unprecedented in the history of the trade in mess pork at Chicago. On the upward scale only a moderate trade was reported. At outside figures the market weakened and gradually settled back with light trading to the close, with the greater portion of the advance lost. While mess pork attracted most attention, there was considerable interest manifested in lard and short-rib sides, and they shared in the advance to some extent, but declined again during the middle of the session. At the close, however, they were active, and prices rallied again, ruling rather firm. The leading futures ranged

MINNEAPOLIS, April 12.—The receipts of wheat for the day were 183 cars; shipments, 25 cars. The demand for cash wheat was a little slow most of the day, though there was a fair inquiry for the better grades early in the session. A few outside millers bought a little wheat, but only millers bought a little wheat, but only enough to meet immediate requirements. Not much wheat was bought by local consumers. Poor grades were dull and neglected. Local elevator companies were fair buyers late in the day. Closing quotations: No. 1 hard, April, 86¹4c; May, 86¹2c; July, 87¹4c; on track, 85¹2c. INDIANAPOLIS MARKETS.

The Volume of Trade in Most Departments Very Satisfactory.

INDIANAPOLIS, April 12. Among the wholesale merchants the more common remark as regards trade, to-day, was that there is little grounds for complaint. Since the 1st of April, unless the weather conditions were decidedly unfavorable, there has been daily a good many buyers in, and the traveling salesmen have, in all lines, brought in good orders from week to week, and for some weeks to come the outlook is for a brisk trade. The steady tone to prices on most lines, and on some lines to an advance rather than a decline, tend to stimulate business. Staple groceries have all taken on a stronger tone. TOLEDO, April 12. — Wheat active and firm; cash, 86c; May, 88c; July, 86c; August, 85c. Corn dull and firm: cash, 34c; May; 8334c; July, 3412c. Oats quiet; cash, 24c. Clover-seed firmer; cash, \$3.35; April, \$3.30. Receipts—Wheat, 2,431 bu; corn, 51,747 bu; clover-seed, 383 bags. Shipments—Wheat, 2,800 bu; corn, 127,500 bu; oats, 600 bu; clover-seed, 357 bags.

Coffee options the last week have advanced 20 points in New York, and package coffees are very firm at the recent advance of 12c per pound. Another advance the coming week will not be a surprise. Raw sugars are higher and firm East, and the tone of the refined market is firm. The distribution of groceries is very free in its volume. The groceries is very free in its volume. The dry-goods men had an excellent week's trade, and prices carry a steady, firm tone. Beot and shee men speak of their trade as being highly satisfactory. The leather men are having a fair trade, and prices rule steady on most descriptions. Provisions are moving outfreely, and prices on most descriptions rule strong. The produce men had a good week's trade. Everything in the vegetable line and in fruits of the season, as well, rules firm. Higher prices on eggs and poultry may be looked for next week, as receipts have fallen off and the demand is improving. The seed men are busy, and prices rule firm in all varieties of seed. The hardware men and dealers in paints and oils are experiencing an excel-lent trade, and prices rule very firm. Other markets have no special feature.

GRAIN. Not for many months has there been a week in which the attendance on 'Change was so large and the bidding as spirited as in the week closing to-day, and with this strong prices have prevailed for the several cereals. Receipts are still light, and whether the same strength would be shown if receipts were beavier is a question.

THE

DAILY, SUNDAY and WEEKLY

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly-among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana. and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianap-OLIS JOURNAL a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party. the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Journal gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known literary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.

THE

INDIANA STATE JOURNAL

(THE WEEKLY EDITION)

One Dollar per year, has a circulation extending to every county in Indiana and adjacent territory. It is a complete compendium of the news of the week, accompanied by the latest market reports, and special departments devoted to agricultural, horticultural and household topics. It is complete in every department.
